I'm a versatile, detail-driven developer based in **Southampton, UK**, with a focus on front-end development and a Why-Not-How approach to building. I have experience building performant, maintainable applications, leading projects from concept to deployment, and optimizing real-world product performance.

Work Experience

Freelance Development

2024 - Ongoing

- Delivered **custom full-stack solutions and scalable UI/UX designs**, improving client usability and satisfaction.
- Applied **performance optimization, CI/CD, automated testing, and SEO best practices**, ensuring high-performing, maintainable digital products.
- Increased **clients' online presence and traffic**, improving SEO indexing and driving up to **70% growth in website visits and customer engagement**.

Psion Vision

2022 - 2025

- Led **cross-platform XR software development**, integrating AR/VR features with a scalable **UI/UX design system**, reducing development time by 30% (dylanalmond.net/work/psion-workflow).
- Implemented **GitHub branching and CI/CD pipelines**, cutting release defects by **25%** and merge times from **24h to 6h**.
- Built a **modern design system and reusable UI framework** for web and desktop apps, increasing design consistency and reducing bottlenecks by **40%** (dylanalmond.net/work/psion-design-system).
- Conducted **R&D for AI-driven ANPR systems and Android voice control solutions**.
- Optimized **core web applications**, decreasing load times by **60%** and improving Lighthouse scores from **~35 to 80+**.
- Implemented **multilingual accessibility features**, including TTS and STT, ensuring compliance with accessibility standards.
- Established **Android release processes**, including APK signing and production builds, reducing deployment issues by **50%**.
- Collaborated with cross-functional teams across XR, AI, and enterprise software platforms, improving **DevOps and UI/UX practices**.
- Delivered measurable business impact by increasing software delivery efficiency **by 75%**, enhancing end-user experience and accelerating feature deployment.

Technologies: React, TypeScript, CSS, Tailwind, jQuery, Node.js, Three.js, Express.js, Electron, Cordova, Tauri, React Native, Capacitor, Expo, Java, Kotlin, Rust, Docker, CI/CD, DevOps

Personal Projects

Sudoku! – Daily Sudoku Game (In Progress)

2025 - Ongoing

Game: sudoku.uk | Case Study: dylanalmond.net/work/sudoku

- Developing a **daily Sudoku game** with **real-time scoring, lives, streak bonuses, and leaderboards**, designed to ensure fair competition and maximize player engagement.
- Implementing **server-side match validation** and offline progress syncing, ensuring integrity and seamless cross-device play.
- Building a **responsive, cross-platform interface** with multi-input controls (touch, keyboard, mouse) for mobile and desktop users.

Technologies: Next.js, TypeScript, Firebase, CSS

AI-Powered Recipe Discovery App – Experimental Platform

2025

Case Study: dylanalmond.net/work/recipe-app

- Prototyped a **AI-driven recipe discovery platform** using vector-based matching and natural-language queries, delivering personalized recommendations based on user feedback.
- Built a **fully functional TypeScript + Express backend** with PostgreSQL (pgvector) and LangChain, optimizing intelligent recommendation logic and search performance.
- Planning a **React Native + Expo frontend** to create an interactive mobile experience, with a focus on responsive design and usability.

Technologies: LLMs, LangChain, PostgreSQL, PGVector, Node.js, Express.js, TypeScript, Python, Figma, Docker, React Native, Expo

Personal Portfolio Website – Static + SSR Web Platform

2025

Live Site: dylanalmond.net | GitHub: github.com/DylanAlmond/website-v4

- Developed a **fast, SEO-friendly, and accessible static portfolio site** using Astro, TypeScript, Tailwind CSS, Alpine.js, and Web Components.
- Implemented **responsive design, PWA offline support, accessible navigation, automated RSS/sitemap generation, full SSR capability, and modular reusable components**, emphasizing performance and maintainability.
- Authored content in **Markdown/MDX** and served as static pages with optional client-side enhancements, following modern front-end architecture best practices.

Technologies: Astro, Alpine.js, TypeScript, Tailwind CSS, Web Components, PWA, SEO, Figma

Dynascale – Reusable React Component

2025

NPM: npmjs.com/package/dynascale | GitHub: github.com/DylanAlmond/dynascale

- Developed a **reusable React component** in TypeScript and CSS that dynamically scales child elements to fit containers while preserving aspect ratio, ideal for **responsive layouts**.
- Built with **modular architecture, clean API design, and performance optimization**, supporting nested children and automatic resizing on container changes.

Technologies: React, TypeScript

Personal Projects – Continued

Archive.org Downloader – Python CLI Utility

2025

GitHub: github.com/DylanAlmond/archive-org-downloader

- Produced a **Python command-line tool** to download complete Internet Archive items using identifiers, with **multithreaded parallel downloads** that **reduced download times by ~70%** compared to sequential methods.
- Implemented **automatic retry for failed downloads** and **integrity validation** via MD5/SHA1 hashes, ensuring reliable large-scale data retrieval.
- Released under the **MIT license** for open-source reuse, emphasizing efficiency, reliability, and community accessibility.

Technologies: Python

Skills

- **Full-Stack Web Development:** HTML, CSS, Tailwind, JavaScript, TypeScript, React, Next.js, Vue, Alpine.js, Astro, SEO, Accessibility (A11y)
- **Cross-Platform & Product Engineering:** Tauri, Electron, React Native, Expo, Capacitor, Cordova
- **Backend & API Engineering:** Node.js, Express.js, GraphQL, Prisma
- **AI & Intelligent Systems:** LangChain, PGVector, Model Context Protocol
- **Infrastructure, DevOps & Platforms:** Git, Docker, Windows, Linux, Android
- **Databases:** MySQL, PostgreSQL, SQLite, MongoDB
- **Design Tools:** Figma, Photoshop, Illustrator

Education

GCSE

2022

Computer Science grade **8**, Science **7-6**, English Language **6**, English Literature **6**, Maths **6**, History **6**, Resistant Materials **6**, Business Studies **5**
